Ain't No Soul by Tommy Vixon

Verse:

She works hard for a living  
and she dances around the kitchen  
She's got heart and a vision  
and she move's the curves, into transition  
She's got confidence  
and the memory of her, makes my heart dance.

Chorus:

There ain't no soul in this music anymore  
There ain't no life, without you, by my side.

Verse 2:

She's always singing  
and she's always listening  
She's always trying, to understand  
She's dedicated and she love's her man  
She shakes the bells  
and she makes the angels look like they're straight from hell

Chorus

There ain't no soul, in this music anymore  
There ain't no life, without you, by my side

Bridge:

She's open hearted, and passionate  
She's hold's the world in her loving hands  
She's always seemed real plain but she's a mystery  
A diamond in the rough, that likes to dream.

Chorus:

There ain't no soul, in this music anymore  
There ain't no life, without you, by my side.
