[Nicole Scherzinger](#)

Let me into your life  
Gimme a minute, gimme the night  
I know a secret spot where we can hide  
I'll take you there if you're willing to ride Look around, this place is no surprise  
I'm the girl and baby you the guy  
I got a body you can exercise  
Let's kick it up a notch to 99 Let's dance, let's get physical  
Work your body like some cardio  
Let's dance, let's get physical  
Let's get emotional and take off our clothes Don't need the breakfast goin' overdrive  
Thought the clock was goin' overtime  
Have to throw it to you over right  
Bet my money stayin' over night Look around, this place is no surprise  
I'm the girl and baby you the guy  
I got a body you can exercise  
Let's kick it up a notch to 99 Let's dance, let's get physical  
Work your body like some cardio  
Let's dance, let's get physical  
Let's get emotional and take off our clothes Let's keep moving, don't you stop  
Cause we got to keep this place hot  
And you got to show me what you got  
Let's take it to the floor Let's dance, let's get physical  
Work your body like some cardio  
Let's dance, let's get physical  
Let's get emotional and take off our clothes Let's dance, let's get physical  
Work your body like some cardio  
Let's dance, let's get physical  
Let's get emotional and take off our clothes
