This Is How We Do

ã‚±ã‚¤ãƒ†ã‚£ãƒ»ãƒšãƒªãƒ¼

Show us off to all your friends
We're the trophy boys
From here to with and when
We break and break your dreams up
Keeping us a secret
We're the back pocket believers
We're the locals who went poster
Call it treason while you can
I'm just a face for every picture
A smile for your scrapbooks
And a story to be told
(It tears and tears me up)
But I'm loving every second
So commemorate this hour
As the last I spend
Regretting what I have
Boys, raise your glasses
Girls, shake those, go, go, go
We're the party, you're the people
Let's make this night a classic
We play, you move
Come on, let me hear you
We're the party, you're the people
And this is how we, this is how we do

The curtain's rising
I'm forgetting where I've been
I watch the lights go up
On a star without his scream
Set it off and say it back
Direction's keeping me on track
But I'll admit I do it all for the attention
I'm just a face for every picture
A smile for your scrapbooks
And a story to be told
(It tears and tears me up)
But I'm loving every second
So commemorate this hour
As the last I spend

Regretting what I have
Boys, raise your glasses
Girls, shake those, go, go, go
We're the party, you're the people
Let's make this night a classic
We play, you move
Come on, let me hear you
We're the party, you're the people
And this is how we, this is how we do
