

Need To Love

Submantra

North-bound train on a Saturday
Here I come, New York City
Been deep in thought, on a little sleep
Distance took my love away

[Chorus]

Do you need to love?
Do you need to love?
Do you need to love someone?

I stare at strangers subtly
Reading and softly speaking
When Princeton 'not sure what he says' sits by me
Sir, can I ask you something?

[Chorus]

Sometimes when there is no one
To love you back all the time
When you're in need
And desperate to fall asleep
Well ain't it wild, though aren't you tired?
Oh, isn't it making you lose your mind?

[Chorus]
