

# Love Is a Cannibal

Elton John

We follow the dog who follows the cat  
We swallow the chain if they don't fight back  
We come and go just gettin' by  
We got a flag on the moon, we got a hole in the sky  
And each man kills the things he loves  
It's an edible romance we all dream of  
And love eats love, eats love, love is a cannibal  
Woman is a criminal, she have a hunger but man is the animal  
And if love eats love, eats love, love is a cannibal  
We live in the woods but we hate the trees  
We kill off the jungle but we save the leaves  
The family face is painted gray  
They did it for the baby and the wedding day  
And each man kills the things he loves  
It's an edible romance we all dream of  
And love eats love, eats love, love is a cannibal  
Woman is a criminal, she have a hunger but man is the animal  
And if love eats love, eats love, love is a cannibal  
Each man kills the things he loves  
It's an edible romance we all dream of  
And love eats love, eats love, love is a cannibal  
Woman is a criminal, she have a hunger but man is the animal  
And if love eats love, eats love, love is a cannibal  
Eats love, love is a cannibal  
Woman is a criminal, she have a hunger, man is the animal  
And love eats love, eats love, love is a cannibal  
Love is, love is, love is a cannibal, love is, love is, love is, love is a  
cannibal  
Love is, love is, love is a cannibal, love is, love is, love is a cannibal  
Love is, love is, love is a cannibal, love is, love is, love is a cannibal
