

# Alone

## Jeffries Fan Club

Living it up just the best I can  
Some day I gotta be a man  
You don't gotta grow up but you gotta grow old  
I've been told, I've been told  
I remember days, days when I went down  
Sometimes life is better when there's no one else around  
It's alright to be alone sometimes  
You don't need to argue and you don't need to fight  
Let it all out I said let it all out and everything will be fine tonight  
It used to be so easy to keep you satisfied  
To keep that smile on your face all I had to do was lie  
Something had to change something deep inside  
Whatever it was that kept me going it had to die
