

Don't Hide Your Wings

[Eric Roberson](#)

Shut this party down if I don't ever win
Just want you to smile again
Whether I'm your man or just your friend
There's no rush girl take your time
All the guys can wait in line
Earn your trust girl you will see
You'll be you and he'll be me
A perfect match don't you agree? Baby to me, you're an angel in disguise
Easy to see
You don't have to compromise,
Don't change a thing for me
Something in the way you are,
Girl makes to be free
Don't hide your wings,
Don't hide your wings,
Don't hide your wings,
Don't hide your wings from me girl.
