

# Since You Went Away

rumHoney

Please,  
Let me down easy,  
Show me that you need me  
Come on baby, tease me

Fear,  
Is nothing i'm afraid of  
I'll show you what i'm made of  
then watch you as you take of

I've only got myself to blame  
I've only got myself to blame  
I've only got myself to blame  
Since you went away

She,  
She says i never told her,  
I never even hold her  
Head against my shoulder

She,  
Is so very mistaken  
to take all that she's taken  
leaving me here shaking

I've only got myself to blame  
I've only got myself to blame  
I've only got myself to blame  
Since you went away

---
