

Open Your Arms

Editors

Look up, look up, look up now
It's a long way down
Look up, look up, look up now
It's a long way down You fail, you fail to see now
What you need the most
Making a meal of me now
You're the perfect host This lot, this lot have messed you around
Well, this lot, this lot have messed you about Open your arms and welcome people to your town Look up, look
up, look up now
It's a long way down This lot, this lot have messed you around
Well, this lot, this lot have messed you around Well, this lot, this lot have messed you around
Well this lot, well this lot have messed you around Open your arms and welcome
Open your arms and welcome
Open your arms and welcome
Open your arms and welcome Open your arms and welcome
Open your arms and welcome
Open your arms and welcome
Open your arms and welcome Open your arms and welcome people to your town
Open your arms and welcome people to your town
