Love Show

Sonohra

I want you, I need you
I'd give my freedom just to be with you
Together divided your like a song I wanna hear again

know that I'd be long here by your side
Love is something that you cannot hide

Come to me set me free
Love can last an eternity
Play your part
Within your heart
Let your love show yeah!
Love can change everything
Turn your winter into spring
Play your part, within your heart
Let your love show yeah!

My spirit are soaring
I know I never felt this way before
You give love new meaning
And now we're opening a brand new door

No one else can make me feel so fine
No one else is ever on my mind

Come to me set me free
Love can last an eternity
Play your part
Within your heart
Let your love show yeah!
Love can change everything
Turn your winter into spring
Play your part, within your heart
Let your love show yeah!

Only for you do I see
Our world love show must go on

Come to me set me free
Love can last an eternity

Play your part
Within your heart
Let your love show yeah!
Love can change everything
Turn your winter into spring
Play your part, within your heart
Let your love show yeah!

Never the end....
