

# Sweetheart

## Ween

She's a sweetheart in the summer  
Summertime is here again  
She's a sweetheart in the summer  
And I hope it never ends Winter days that never end  
Frozen nights with you under the covers  
But the lonely time we spend  
Is worth it in the end when summer comes Making love and holding hands  
Rolling in the sun and sand together  
Every year when summer comes around  
We fall in love again She's a sweetheart in the summer  
Summertime is here again  
She's a sweetheart in the summer  
And I hope it never ends I'm gonna take you far away  
Pack the car, let's get away for a while  
We'll find a motel room  
And call it home for just a couple days Love to see your smiling face  
Nothing else is sweeter in the world  
'Cause when everything is said and done  
You will always be my girl She's a sweetheart in the summer  
Summertime is here again  
She's a sweetheart in the summer  
And I hope it never ends Sweetheart in the summer time  
Sweetheart in the summer time  
Endless summertime with you
