Feeling chills in the summer time, hot then cold,  
Something happens to the weather, when you gone,  
High tide, earth shake, take me there  
Love me, hate me, fuck me even better  
done want to come down, wanna be up forever  
but I need another fix and you're gone away It's where you ought to be,  
right here next to me, don't go  
don't go astray.  
I'll keep you close to me  
that's where this ought to be  
your only place, home Have you seen her around, looking all over town?  
Looking on the block, I've been waiting on this spot?  
Who showed up stoned as hell  
using the past as scapegoat  
Oh had me so hard to break.  
'cause you just can't take the pain, away. It's where you ought to be,  
right here next to me,  
don't go, don't go, don't go astray.  
I'll keep you close to me  
right where this ought to be  
your own, your only place It's where you ought to be,  
right here next to me,  
don't go, don't go, don't go astray.  
I'll keep you close to me  
that's where this ought to be  
your own, your only place Mean So much, mean so much, mean so much Right here next to me
