

Fires

Skywriting

Baby, darling, doll face, honey
Now I don't mean to cause you worry
 It's only hands in my pocket
 And the queen on my money
Did you know I've been wanting you?
 So leave your locks on the latches
 If you bring the water
 I'll bring the matches
'Cause we are fires in the night
 We are fires in the night
 Let us bathe you in our heart
'Cause we are fires in the night
 Come on get up Romeo
Don't you know what the time is?
 It's the fall of rock 'n' roll
 That's what the news said
Did you know I've been wanting you?
 So leave your locks on the latches
If you bring the water, I'll bring the matches
 'Cause we are fires in the night
 We are fires in the night
 Let us bathe you in our heart
'Cause we are fires in the night
 We are fires in the night
 We are fires in the night
 Let us bathe you in our life
 We are fires in the night
