

Lifelike

Ackryte

Way down low with the pretty ones
Floating on beautiful pills
So lifelike it's becoming real Everything is alright
Life is but a dream
Everything is alright
It's so lifelike Deep inside your secret place
Cover me like a liquid angel
This hunger I could never feed
You are my uncertain danger Everything is alright
Life is but a dream
Everything is alright
It's so lifelike Everything is alright
Life is but a dream
Everything is alright
It's so lifelike Everything is alright
Life is but a dream
Everything is alright
It's so lifelike
