Please Shut Off the Lights

Knapsack

It wraps around the cord for him
Said I'm wasting, sinking
Soaking in to bones and cartilage
Crossing out the quarter where he livesSo I have arrived
Know this nothing gets me nowhere
Know I am larger than this lie
Our generationsI have only one regret
At the moment I forget
Any takers on this life
And if you're the last one left
This is my request
Could you just shut off the lightsTake a sample and let it testify
Drowning endless estimation anger of my life
Terrorized to the ending of my end
Everything is absent is nothing I can giveSo I have arrived
Know this nothing gets me nowhere
Know I am larger than this lie
Our generationsI have only one regret
At the moment I forget
Any takers on this life
And if you're the last one left
This is my request
Could you just shut off the lights
