Look  
Why do I get so empty  
Conviction  
Throw a lie  
I don't care Compress the sun  
You've come my way with all I ever had  
You try to be so innocent with what you always say  
And now you go, I fade away  
I just can't understand  
Face left out  
Come around I try to live my lie and satisfy  
I hate your plastic smile  
Lie and satisfy  
I hate your plastic smile Why do I act so low  
Why do I get so empty  
Conviction  
Throw a lie  
I don't care I don't care about you Everyday take away my mind  
Maybe got nothing to say  
You never were a part of me  
Fuck you I won't change  
Now you go around  
A vision of me  
I wish that I'd still care  
I know you don't, you realize Smack my face Smack my face, so I'm free
