

# Tuck it Away

## NoMeansNo

Mixed emotions up for grabs in bed  
He wants some love unreal  
Fixture of his imagination  
He finds love an easy victim  
Pretending you don't care  
Pretending you don't mind  
Pretending it's all right  
Pretending you're just fine  
Tuck it away  
In all her best pretensions, she made  
Real all her inventions, now she  
Everything she knew she would be  
She finds love an easy victim  
Pretending you don care  
Pretending you don mind  
Pretending it all right  
Pretending you're just fine  
Tuck it away  
We all agree it such a bore  
Don talk about it anymore  
We all agree it such a bore  
Don ever talk about it  
Don even think about it  
Tuck it away
