

Find What You Get

Bang Gang

You can tell me
All the trouble's gone
Before you reach the sky You can tell me
All the trouble's gone
Before you reach the sky Find what you get there
Find what you get there You can tell me
All the trouble's gone
Before you reach the sky Find what you get there
Find what you get there You can tell me
All the trouble's gone
Before you reach the sky Find what you get there
Find what you get there
Find what you get there
Find what you get there
