

Come On Up

Widowmaker

(Everything is wonderful)
First you think its easy, then its not
Then you wonder why youre stuck down here on this rock
Times comes you may look around
And realize were all weve got
Makes you wanna come on up When you think your carrying, to much load
And you feel your heart might just explode
Wow ow little wanderer your standin on a walking rope
Makes you wanna come on up, right now So come on up to this love right now
(Come on up come on up)
Come on up some one will show you out
(Come on up come on up)
Youre standin inline at the tree of life
When theres fruit on every bow
Just come on up to this love right now You know people tell you anything you wanna hear
The truth is always whispering in your ear
Someones always gonna tell you what you wanna hear
All the while the truth is whispering in your ear So come on baby
(Come on up to this love)
Oh come on up come on up
(Come on up to this love)
Wont you come on up to this love
(Come on up to this love)
Oh come on up to this love
(Come on up to this love)
Oh yeah, come on up
