It's Not Safe

Gentleman Reg

Outside of tiny windows
Impenetrable land made of cloud
With textures, rolling hills, white meadows
Movements that unsettle
And remind one where we are

Movements that unsettle
And remind one where we are
Intentionally out of control
Seemingly graceful
Acting like birds, acting like birds

It's not safe to be naked,
Young or creative anymore
It's not safe to be naked,
Young or creative anymore

How close we pass water
How quickly the ground comes up
Arriving in California on a cloudy day
Is not what I expected

It's not safe to be naked,
Young or creative anymore
It's not safe to be naked,
Young or creative anymore

It's not safe to be naked,
Young or creative anymore
It's not safe to be naked,
Young or creative anymore

It's not safe to be naked,
Young or creative anymore
It's not safe to be naked,
Young or creative anymore
