## Great Northern

Tell you a secret, tell you a story  
About someone inside, I sit around  
Get you some glory  
And don't forget to tack on a lie And all those things  
You tried to make you feel alive  
And if you can't tell  
Why those things make you blind  
That may be why the sun sets high What do you want?  
What do you need?  
What do you get?  
What do you see? Tell me a secret, tell me a story  
How about one, you can't hide behind  
Pass it around, get me some glory  
I won't forget to tack on a lie And is it all those things that  
We won't ever say  
And is it all those things  
We won't ever be And is it all those things  
We would pay not to see What do you want?  
What do you need?  
What do you get?  
What do you see? It's all the same with different words  
A simple name you knew you were  
The story goes I'm hiding, you're hiding  
I'm hiding away I should have left it all alone  
I should have left it all alone What do you want?  
What do you need?  
I should have left it all alone What do you get?  
What do you see?  
I should have left it all alone What do you want?  
What do you see?  
I should have left it all alone What do you get?  
What do you need?  
I should have left it all alone
