Dead Like Me

Nothingface

I realize time's ticking by
Change what I am
The ways I feel it
Like me now, like you now, like me nowThe faces change, hides in the shade
I can't fear the way back into you
Hide everything that's helping me
Why can't you just let me fall apart?I realize time's ticking by
Change what I am
The ways I feel it
Like me now, like you now, like me nowThe colors fade, caused bloody days
Now you know the truth about your friends
Just where they are and where they lie
Why can't I wash the blood off my hands?I realize time's ticking by
Change what I am
The ways I feel it
Like me now, like you now, like me nowI realize time's ticking by
Change what I am
The ways I feel it
Like me now, like you now, like me nowSo, you think I'm nothing
But you'll see, dead like me
I got this feeling in my chest
That I'm free, dead like meYou'll see
I showed you inside of my dream
You'll see
But then will I feel nothing?You'll see
I showed you inside of my dream
You'll see
But it's my turnYou saw me dying
You want to sell
Your soul to those men
You'll risk us allIf there is one thing
I've got to tell you
You say you're cold but it's bullshit
Alone again I said we'll beat them allI realize time's ticking by
Change what I am
The ways I feel it
Like me now, like you now, like me nowI realize time's ticking by
Change what I am
The ways I feel it

Like me now, like you now, like me nowAll the pain, it satisfies my dreams and thirst
I'll never try to help you or your filthy friends
I'll always hate you till the end
