Maybe

Opshop

So what's this big secret you can't tell me
I don't wanna piece
of this
haven't we all had enough
enough for one day
I don't wanna argue with you
you got me shivering in my spine...

If everything turned out as we had said
we wouldn't have to sit through any of this?
Maybe I would be a better fit
in my own skin?

I'm not gonna try to divide or ignore you,
in the pieces of the puzzle
that never seem to fit
I'm not playing hang-man with you
I've run out of letters
that'll hold words
You got me shivering in my spine

If everything turned out as we had said
we wouldn't have to sit here talking like this
maybe I would be a better fit
in my own skin?...
Maybe?...
If everything turned out as we had planned
we wouldn't have to go through any of this
maybe it would be more simple than you could ever think?

Stay right where you are
snoozing through an alarm
make no sudden movements
just tell me where we are?
'Cos here I am, and there you are
snoozing through an alarm x2

If everything turned out as we had said
wouldn't have to go through any of this...

Maybe? wohhhhhhh x4
Maybe? wohhhhhhh x3
Maybe? wohhhhhhh x3
