

# Hope You're Doing Fine

Cyndi Thomson

The Arizona sun looks like a ruby in the sky  
And when the desert wind blows like a friend  
It's enough to make you high  
Here I am so far away from Eastern Standard Time  
But I miss you, babe  
I hope you're doing fine  
I hope you're doing fine Well I found a job it's nothing much  
But at least it pays the rent  
The boss is nice, but not his wife  
But she only works weekends  
How are things in Charleston  
Is there someone in your life?  
Guess, I shouldn't ask  
I hope you're doing fine  
I hope you're doing fine  
(I hope you're doing fine) We were making plans together not so long ago  
(Not so long)  
Thought we could see forever from that Carolina coast  
But, things change  
Everything changes  
Yeah, things change  
Everything changes  
Everything Now the moon is up and the stars are out  
Yeah, it's quite a sight to see  
It's times like this oh, how I wish  
You were still here next to me
