High On You

Femke

Oh, oh yeah
Baby, I'm high, high on the love we make
That's what you do for me
Baby, I'm high, high on the love we make
Baby, I'm high on you
Been a long time down
Lookin' at the ground and feelin' bad
Heaven knows I've tried
But the pain inside just made me sad
When you're looking back at yesterday
And find you can't let go
You need someone who can lift you up
To get ready for tomorrow
Baby, I'm high, high on the love we make
That's what you do for me
Baby, I'm high, I am in ecstasy
Boy, what you doing to me
'Cos baby, I'm high, high on the love we make
Baby, I'm high on you
Took me by surprise
When I saw the passion in your eyes
Now I've got you here
Life is good and I feel satisfied
Now I'm flying with the birds above
I'm floating to the moon
Got the clouds to walk on every day
And the stars shine when you walk in the room
Now I'm high, high on the love we make
That's what you do for me
Baby, I'm high, I am in ecstasy
Boy, what you doing to me
'Cos baby, I'm high, high on the love we make
That's what you do for me
Baby, ya makin' me high, high on the love we make
Baby, I'm high on you
Baby, I'm high on your kiss
Now I'm addicted to you
I don't want to get over this
Oh yeah, baby, I'm high on you

You need someone who can lift you up
To get ready for tomorrow
Baby, I'm high enough on what you do
You make me feel so high on you
I'm high, so high, so high
Baby, I'm high enough on what you do
You make me feel so high on you
I'm high, so high, so high
Baby, I'm high enough on what you do
You make me feel so high on you
I'm high
Baby, I'm high enough on what you do
You make me feel so high on you
I'm high
Baby, I'm high enough on what you do
You make me feel so high on you
I'm high, so high
Baby, I'm high enough on what you do
You make me feel so high on you
I'm high
