

Take Me To Infinity

Breathe Carolina

Take me to infinity
If we could stop time tonight
Then there would be no goodbye
Take me to infinity
Don't let me go
Don't you dare close your eyes Don't you dare close your eyes
Take me to infinity
Don't you dare close your eyes Take me to infinity
Keep the beat between your teeth
It's relentless and real
Take me to infinity
And take everything
All the time you can steal And it felt like Take me to infinity
Sparkle and shine
Baby, light up the sky
Take me to infinity
I'll fill up your soul
In the dark if you're shy Take me to infinity
Out of control
At the speed of this light
Take me to infinity
A never ending [Incomprehensible]
So we'll never die And it felt like Take me to infinity
Don't you dare close your eyes
Take me to infinity
Don't you dare close your eyes Take me to infinity
Trust what you feel
'Cause your eyes will deceive
Take me to infinity
Come on and melt your body
Let your hips hit your knees
