

What You Came Here For

Tigertown

You see my hands and my feet
Lean my gun on the floor
With these lips I will speak
About a time known before[Chorus]
If we run away
From what you say
Is that what you came here for
Peace and sobriety is not what they make
Is that what you came here for Lean me down on my knees
Cut me with these walls
With these eyes I will see
What was spoken before[Chorus]x3
