

# It's Only (feat. Zyra) [R&F DU SOL Rem

## ODESZA

[Verse 1: Zyra]

I heard the news today  
That you're not mine to keep  
Don't struggle too much now  
While I kill you in your sleep  
What is lust if it's not being by yourself?  
I won't be gentle to the body on the shelf[Hook]

It's only water

It's only fire

It's only love

It's only slaughter

We're only liars

It's only blood

They're only thoughts that  
I'm having thoughts safe within my head

You're only crying

You're only dying

You're only late[Verse 2: Zyra]

I heard the news today

That you weren't not mine to save

I hope that you're comfortable

In the quiet plastic grave

What is lust if it's not being by yourself?

I won't be gentle to the body on the shelf[Hook with variation]

It's only water

It's only fire

It's only love

It's only slaughter

We're only liars

It's only blood

They're only thoughts that  
I'm having thoughts safe within my head

You're only crying

You're only dying

You're only deadIt's only water

It's only fire

It's only loveIt's only water

It's only fire

It's only loveIt's only water

It's only fire  
It's only loveIt's only water  
It's only fire  
It's only love[Instrumental break][Hook with variation]  
It's only water  
It's only fire  
It's only love  
It's only slaughter  
We're only liars  
It's only blood  
They're only thoughts that  
I'm having thoughts safe within my head  
You're only crying  
You're only dying  
We're only dead
