Cavity

Critikal

[Verse 1]
There's a man walking
With a rope and a shovel in his hand
And he's digging, he's digging
Down to clay
I lean back and watch the ceiling sway[Chorus]
But you make these feelings go away
You make these feelings go away
You make these feelings go away
You make these feelings go away
You love who floods[Verse 2]
Seeing him's easy when no one's around
Finding him's easy when all that you've found
Are gardens and sirens both move to the sound
Of little worms writhing[Chorus][Verse 3]
So come then come over and sit by me
Follow the arrow following me
Nothing to fill in, nothing to free
Nothing here love but a cavitySwallow the arrow following me
Nothing to fill in, nothing to free
Nothing here love but a cavity
