

# Always

## Saliva

I hear a voice say "Don't be so blind"

It's telling me all these things

That you would probably hide

Am I your one and only desire

Am I the reason you breathe

Or am I the reason you cry Always, always, always, always, always, always

I just can't live without you

I love you, I hate you, I can't get around you

I breathe you, I taste you, I can't live without you

I just can't take anymore

This life of solitude

I guess that I'm out the door

And now I'm done with you I feel, like you don't want me around,

I guess I'll pack all my things,

I guess I'll see you around,

It's all been bottled up until now

As I walk out your door,

All I can hear is the sound Always, always, always, always, always, always,

I just can't live without you

I love you, I hate you, I can't get around you

I breathe you, I taste you, I can't live without you

I just can't take anymore

This life of solitude

I guess that I'm out the door

And now I'm done with you I love you, I hate you, I can't live without you I left my head around your heart

Why would you tear my world apart Always, always, always, always I see, the blood all over your hands

Does it make you feel, more like a man

Was it all, just a part of your plan

This pistol's shakin' in my hands

And all I hear is the sound I love you, I hate you, I can't get around you

I breathe you, I taste you, I can't live without you

I just can't take anymore

This life of solitude

I guess that I'm out the door

And now I'm done with you I love you, I hate you, I can't live without you I love you, I hate you, I can't live without you

I just can't take anymore

This life of solitude

I pick myself off the floor

And now I'm done with you  
Always, always, always
