

Let Me Go (feat. Jalissa)

Shystie

Verse one
Look, be real with me
I can take it and deal with it
Don't filter it, don't sell me a dream or a guilt trip
Are you in let me know how
If not walk away let me go now
But if you want this
I swear to you know one can stop this
Look, I love hard
It's all or nothing or I can't
Never been half hearted
It all comes straight from my heart
So, I need to know now
What I give can you match me?
I know need to know now, love will you catch me?
Pre hook: Let's just do it now
Let's just get it over with
Only got one chance to save tomorrow
Look me in my face,
Is this how you want to live?
If you take the lead then I will follow
Hook: Give me all your love
Give me all your heart
If I'm not the one let me go
Give me all your love
Give me all your heart
If I'm not the one let me go
I want you to let me go
Want you, to let me x2
Verse two
Look, the love things hard work
Promise don't give up when it might hurt,
Fight for me first
Love me at my best and worse
So, I need to know now
What I give can you match me?
I know need to know now, love will you catch me?
Pre hook:
Repeat
Hook:
Repeat
