## **Degenerates**

## **Scary Kids Scaring Kids**

Do you think that you're made of gold?

Invincible?

You think you can handle it?

You will learn from this I'm telling you, friend

This is something worth fighting for

Does it not seem contradicting

To sit back and watch them take more? Caught like a deer in their headlights

You're stuck now, you're bound by your fear

I suggest you break free

Or you'll forever be damned hereWe were merely degenerates waiting for you

To come sweep us off of our feet

They keep marching on, spilling blood like savages

Taking lives while your cigarette burns, burns You can't tell me, my friend

That that wasn't worth dying for

Gave it all and received nothing

May as well have let them take moreDig deep, find the courage to speak

Are you really still bound by your fear?

This is all just a dream now

You can't speak and you're damned hereWe are merely degenerates waiting for you

To come sweep us off of our feet

They keep marching on, spilling blood like savages

Taking lives while your cigarette burns, burnsThis is our fight for freedom

This is our way of saying

This is our dayWe've been waiting

For this one day all our lives

This is nothing short of predictableStop holding your head down, give it up

And get a hold of yourself now or give it up

You're like a deer in the headlights

You've given up to save your lifeWe've been waiting

And we're waiting all our lives

This is nothing short of predictableStop holding your head down, give it up

Get a hold of yourself now or give it up

You're like a deer in the headlights

You've given up to save your life

(Find the will to save your life)
