Sacred Steel

Sacred Steel

Born into metal born into steel
deep in the heart of darkness
metal is revealed
out of the blackness to rule and to kill
those weak and false shall perish
taste the sacred steelSee the light feel the steel
the mighty power of the iron gods to wield
defenders of salvation enemies of night
soldiers of fortune guardians of lightUnited by the power united by the will
our hearts are filled with metal
for metal we kill
make the dream come true let the war begin
you losers step aside
for sacred steel has come to winBelieve in magic believe in truth
believe in yourself and conquer doom
believe in suffering and all will heal
as we deliver sacred steelHead on steel commander
lead us into the fight
lead us into our destination
victory and mightWe came to kill
sacred steel
with iron will
sacred steel
