There's a Key

M. Ward

So I'm losing my marvels
One marvel at a time, it's true!
But I'm stuck between what we have done
What we gonna do?
There's a key on my piano that it played for you!And now I'm conquering the ocean, one wave at a time, it's true!
Cause I cannot beat the devil,
I'm taking on the deep, deep blue
Under this key of my piano that I play it for you!Can you hear it? Can you see?
...divided
Ocean's wide till he jumped inside this... wave and me!So I'm losing my marvels
One marvel at a time, it's true!
But I'm stuck between what we have done
What we gonna do?
There's a key on my piano that it played for you!
