Burial

I'm gonna love you more than anyone
I'm gonna love you more than anyone This is who I am I'm gonna love you more than anyone
I'm gonna love you more than anyone This is who I am I'm gonna love you more than anyone
I'm gonna love you more than anyone I'm gonna love you more than anyone
I'm gonna love you more than anyone It's about sexuality, it's about showing a person who you are
To me, this is who I'm about I'm gonna love you more than anyone Sometimes you are trying to find yourself
And you run away always
And that's what happened to me
I've chosen you disciple This is who I am
You know my motherfucking style We're good to role Tian di jian I've been watching you
I want to be you This is who I am This is the best way to go
At night, you can see the city lights brighter than ever
And stars and constellations
And it's breathtaking
The star field is just so spectacular
And one night, I saw something come down to us
Come down to us
