

# Armageddon

## Cocorosie

Lets all gather at time square  
And lets all say a prayer  
To Walter Disney and Mike Tyson  
At Madison Square Garden

And then the lights came on  
In the middle of the night  
What I should do with my life  
How I should spend my time

I'll be a stock broker and get me a wife  
Have the diamonds cut  
Have the diamonds

And Jesus said there a girl's best friend  
And hell they'll last forever  
And Jesus said now take her hand  
And raise this harlot's bastard sun

And then the lights....

And afterwards we'll all go to hell  
When the money's all spent  
When the money's all gone  
There'll be a place for us in heaven's gate  
Waiting for us on lay away

And then the lights....

And oh what a pity the world's no white  
And oh what a shame I don't have blue eyes  
God must have been a color blind  
If I made the world it would be all white
