

Heart Away

Musiq Soulchild

(Verse)

Oh, when you fall in love it feels great
Make you feel like you was back in the fifth grade
And you hope the feeling never fades away
'Cause it does, all that love turns into pain uh
Then it makes it hard for you to try again
Now you're feeling like you'd never might again
'Cause you couldn't wait it out
Take your time, tryina find out who's the right one (uh)
Uh, some people don't listen (no)
Heartbreak by admission (uh)
No one is responsible to protect your heart
Only fools go rushin' (yeah)
Hopelessly over nothin' (ah huuh)
Then get mad when everything falls apart(Chorus)
You just can't give your heart away
No, you just can't give your heart away
So, don't just give your heart away
And away, and away, and away
And away, and away, and away
And away, and away
'Cause you just can't give your heart ^away^
So, don't just give your heart away
And away, and away, and away
And away, and away,(Verse)
Everybody wants to be loved,
But you gotta be careful what you get into
'Cause everybody that you're wanting
Ain't necessarily who you wanna let in no
So, you go getting' around
Cause it seems you've
Found someone who's down for now
But not for your affection,
So stop for your protection,
You've gotta be selective
Buuuut most people don't listen (naw)
Heartbreak by admission (uh)
No one is responsible to protect your heart
Only fools go rushin' (yeah)

Hopelessly over nothin' (ah huuh)
Then get mad when everything falls apart(Chorus)
You just can't give your heart away
No, you just can't give your heart away
So, don't just give your heart away
And away, and away, and away
And away, and away, and away
And away, and away
'Cause you just can't give your heart ^away^
So, don't just give your heart away
And away, and away, and away(Bridge)
Don't get confused with what you feel
For what is real,
That's how you end up hurting yourself
Don't get confused with what you feel
For what is real,
And just end up hurting yourself(Chorus)
You just can't give your heart away
No, you just can't give your heart away
So, don't just give your heart away
And away, and away, and away
And away, and away, and away
And away, and away
'Cause you just can't give your heart ^away^
So, don't just give your heart away
And away, and away, and away
And away, and away, and away
(Don't get confused with what you feel
For what is real,
That's how you end up hurting yourself
Don't get confused with what you feel
For what is real,
And just end up hurting yourself)
Don't just give your heart away!
