

# Now It's For Real

Barry Manilow

hard to believe  
only a day  
and fifteen years of hard times  
flyin' away all those dead ends  
bills comin' due  
then one door opens  
and I walk through--  
why should it amaze me  
I always knew now it's for real  
here and today  
forget about dreamin'  
it's real all the way the world's made to order  
here's how it feels  
mine and I'm movin' it  
now it's for real all the way up  
I'm gonna climb  
been waitin' forever  
and here's my time was hungry for years  
eyes on the goal  
now comes the payoff  
I'm on a roll  
and I'm gonna own this  
body and soul (repeat chorus) let down B gone  
run around B gone  
first time in my life  
my timing's dead on (repeat chorus)
