

# Hope

## Jagged Edge

Advisory - the following lyrics contain explicit language:

Man, I've been playing around these streets so long  
I know my girl think that I'd never be ready  
But I'mma do all I can to let her know I'm ready  
'Cause really, she is worth it! From now on I'm takin' all it costs  
From now on we won't get lost on our way home  
My time is running out, I know  
And right now I'm just tryina restore her hope in me, just clearly  
Somebody then her  
I just wanna be the one who stands between  
Anyone who don't do 'er right  
I'll be there like every night  
Tryina make this girl see the light Hope that she sees a thug when she sees me  
Hope that she sees all this love I'm filled with  
All I wanna do is, all I wanna do is  
Came up with this little plan  
Put her hope back in me!  
I hope that sure she sees a thug when she sees me  
I hope that she sees all this love that we should be  
All I wanna do is, all I wanna do is  
Came up with this little plan  
Put her hope back in me! I see the pain he put in her face (Put in her face)  
Show me where he's at let me put him in his place  
I'm tryina ball out but girl I know  
That is a gain back to put her hope in me  
Girl, Valentine day will be like everyday  
And birthdays will come around like everyday  
By now I'm starting to build her hope (starting to build her hope) And I just hope she sees me  
Hope that she sees the thug when she sees me  
Hope that she sees all this love I'm filled with (and I'm feeling)  
All I wanna do is, all I wanna do is  
Came up with this little plan  
Put her hope back in me! Hope she will just see a thug when she sees me

Hope that she sees all this love that we should be  
All I wanna do is, all I wanna do is  
Came up with this little plan  
Put her hope back in me! Tryina to love you better than you've ever been loved  
Tryina touch you better than you've ever been touched  
When it comes to sex you know I keep turning up  
To a place you've never been, girl! Hope she don't just see a thug now  
Hope that she see all this love  
Hope she don't just see a thug now Hope she don't just see a thug when she sees me  
Hope that she sees all this love I'm filled with  
All I wanna do is, all I wanna do is  
Came up with this little plan  
Put her hope back in me! Hope she don't just see a thug when she sees me  
Hope she sees all this love that we should be  
All I wanna do is, all I wanna do is  
Came up with this little plan  
Put her hope back in me!
