

If It Kills Me (From The Casa Nova Sessions)

Jason Mraz

Hello, tell me you know
Yeah, you figured me out
Something gave it away
And it would be such a beautiful moment
To see the look on your face
To know that I know that you know now And baby that's a case of my wishful thinking
You know nothing
Cause you and I
Why, we go carrying on for hours, on and
We get along much better
Than you and your boyfriend Well all I really wanna do is love you
A kind much closer than friends use
But I still can't say it after all we've been through
And all I really want from you is to feel me
As the feeling inside keeps building
And I will find a way to you if it kills me
If it kills me Well how long, can I go on like this,
Wishing to kiss you,
Before I rightly explode?
This double life I lead isn't healthy for me
In fact it makes me nervous
If I get caught I could be risking it all Baby there's a lot that I miss
In case I'm wrong Well all I really wanna do is love you
A kind much closer than friends use
But I still can't say it after all we've been through
And all I really want from you is to feel me
As the feeling inside keeps building
And I will find a way to you if it kills me
If it kills me If I should be so bold
I'd ask you to hold my heart in your hand
Tell you from the start how I've longed to be your man
But I never said a word
I guess I'm gonna miss my chance again Well all I really wanna do is love you
A kind much closer than friends use
But I still can't say it after all we've been through
And all I really want from you is to feel me
As the feeling inside keeps building
And I will find a way to you if it kills me
If it kills me If it kills me

I think it might kill me And all I really want from you is to feel me

It's a feeling inside that keeps building

And I will find a way to you if it kills me

If it kills me

If it kills me

It might kill me
