

We Could Be

[Keyshia Cole](#)

Oh yeah yes, ooh
Can I talk to you for a minute
There's something on my mind
That I wanna say Ooh reality is takin' control of me 'cause I know
Baby, I know that your loving me
Ooh loving you boy, I wanna contradict my word
I belong with you, I do truly wanna know When you hear me talkin', watcha think
When you lookin' into my eyes, watcha see
I know you ain't tryna to be my man
Watcha think about us bein' friends, makin' plans To be everything we wanna be
Makin' our dreams turn reality
I'm diggin' everything you appear to be
And I'm wonderin' if we could be real good friends
