White Jam

Captain Beefheart

She serves me flowers and yams
And in the night when I'm full
She brings me white jam
And I don't know where I am
In the meadow she brings me
Like ah bee she stings me
And I don't know where I am
Clouds clingin' to us
And the sun lookin' through us
And in the night when I'm full
She brings me white jam
And I don't know where I am
