

Towerblocks

The Skallywags

So why am I talking to you?
You're not a childhood friend I said i'd see to the end
But when I leave you for home,
I'll still be surrounded by the block boys

Cause I am aware of where I'm going
But you stand, stood there like a fuckin' scarecrow
In another farmer's field
We're tower blocks in, am I that entertaining?
Have a pound or two to borrow?
That'll sort me out just fine
To meet you two tomorrow
Shall we make our way back to mine?
Cause I just wanna sit here and enjoy my pint
And now i'm feeling like a fiend here looking for a fight
Look out, you look out, yes it's all gone
You've been talking to me for far too long now

And look at your life it's a mess
The fact you've been smokin' don't taste the best (Ah!)

So why am I talking to you?
You're not a childhood friend I said i'd see to the end
But when I leave you for home, I'll still be surrounded by

And I am aware of where I'm going
But you stand, stood there like a fuckin' scarecrow
In another farmer's field
Tower blocks in, am I that entertaining?
Have a pound or two to borrow?
That'll sort me out just fine
To meet you two tomorrow
Shall we make our way back to mine?
Cause I just wanna sit here and enjoy my pint
And now i'm feeling like a fiend here looking for a fight
Look out, you look out, yes it's all gone
You've been talking to me for far too long now

And look at your life it's a mess, right?

The fact you've been smokin' don't taste the best (Ah!)

(Hahahaha!) I am aware - pupils are growing
And i'm much more fucked than my face is showing
Am I that entertaining?
Am I that entertaining?
Am I that entertaining?
No
