Memory Man

Caesar

Is it really a surprise to see you here acting all nice
What an actor you can be, talking smooth like vaseline
Like a castle I feel now, with you howling up my walls
This is working really good, for your words cannot get throughI'm not heartless baby, no, just not ready to let go
Your regrets sound almost true, now let me get back at youI am doing well these days, now my point of view has changed
Got a castle in my mind where I find myselve sometimesI'm not heartless baby no, just not ready to let go,
It's the proper thing to do, now let me get back at you
I'm not heartless baby no, just not ready to let go
You got me messed up really good, now let me get back at you
