Tease Me

3t

We can do it nice and slow
Six o'clock it's gettin' dark
And do all alone
So dim the lights, lock the door
Baby, come on
'Cos I've waited for this moment for so long
I don't want just anybody who wants to get it on
I don't think that I can hold my feelings
Back no more
So baby, please stop
Ooh, it's getting hot
Girl, you better not
Why you always wanna tease me
I don't wanna waste no time
So bring your body close to mine
We can do it nice and slow
And easy
I don't wanna waste no time
So baby, just let it all unwind
Girl, don't tease me
Well it's time let your mind
Blow the horn
Come a little closer baby
Don't be afraid
Let me show you the way to my love
Come on
'Cos I need somebody
To love me all night long
I don't want just anybody
Who wants to get it on
I don't think that I can hold my feelings
Anymore
So baby, please stop
Ooh, it's getting hot

Girl you better not
Why you always wanna tease me
I don't wanna waste no time
Don't tease me

We can do it nice and slow
Why you wanna tease
Tease, tease me
I don't wanna waste no time
Why you wanna tease, don't tease me
Girl, don't tease me
I don't wanna waste no time
So bring your body close to mine
We can do it nice and slow
And easy
I don't wanna waste no time
Baby, just let it all unwind
Girl, don't tease me
Why you wanna tease me
Tease me
Why you wanna tease me
Say why you wanna, why you wanna, why you,
Why you, why you, wanna tease me
Why you wanna tease me
No, no, no, no, no
I don't wanna waste no time
So bring your body close to mine
We can do it nice and slow
And easy
I don't wanna waste no time
Baby, just let it all unwind
Girl, don't tease me
I don't wanna waste no time
So bring your body close to mine
We can do it nice and slow
No, no, no, no, no
