## Reason

## **No Angels**

I'm going through good and bad times Working hard to live my dreams and I Know now that I chose the right way I'll never forget the last three years, butSometimes - I wonder If I had - made it without...The way you love me and support me Makes me know we'll never part The way you touch me deep in my soul THAT'S THE REASON you're in my heart... The way you need me like I need you I'm sure we'll never part The way you feel me and make me smile THAT'S THE REASON you're in my heart...In moments of fear and darkness You covered me with light and hope But we need a break it won't be forever, cos We owe you the time of our lifesAlways - In all times We will be - yours, cos we know...The way you love me and support me Makes me know we'll never part The way you touch me deep in my soul THAT'S THE REASON you're in my heart... The way you need me like I need you I'm sure we'll never part The way you feel me and make me smile THAT'S THE REASON you're in my heart...
