

Forever And A Day (always)

Jewel

The other day you asked me to
Tell you how much I love you.
Oh but words so often fail,
To describe the depth and scale,
And even though it may sound cliché,
I'll tell you now in my simple way.

[Chorus]

My love is as true as the
Oceans are blue,
And I always feel this way.
Just listen to the beating
That keeps repeating.
My heart wants to say
Like Gala and Dali, it's you and me,
Forever and a day
Forever and a day, always

You watch me turn out the light,
Wrap my arms around you,
Say good night.
Trace our shadows on the wall.
Thank God for the miracle of it all.

[Chorus]

The road of life winds
With the passing of time.
I can hear you say,
"How can hearts know
Where love will go
Beyond today?"

And I always feel this way.
Just listen to the beating
That keeps repeating.
My heart wants to say
Like Gala and Dali, it's you and me,
Forever and a day
Forever and a day, always.
