

# The Best of Me

## Kenny Rogers

So many years' gone  
Still I remember  
How die I ever let my heart  
Believe in one who's never giving love to me  
So many years' gone  
Love that was so wrong  
I can't forget the way it used to be  
And how you change the taste of love for me  
You're my one more chance  
I never thought I'd find  
You're the one romance  
I've always known in my mind  
No one will ever touch me more  
I might have saved  
The best of me for you  
And will have no ending  
If we can hold on  
I think I've gone this far because of you  
Could be no other lovers will do  
No one will ever touch me more  
I only hope that in return  
No matter how much we have to learn  
I save the best of me for you
