Looking At You

Indian Jewelry

When it happened
Something snapped inside
Made me want to hide
All alone on my own
All alone on my ownI stood up on the stand
With my eyes shut tight
Didn't want to see anybody
Feeling happy, having a good time
Now, hey, doing alright, doing alright
Doing alright, doing alrightDanced hard into the dancing crowd
Felt like screaming out loud
I saw you standing there
I saw your long, saw your long hairOpened up my eyes, baby
You made me realize all I want to do now
All I want to do now, girl
Is look at you, looking at you, baby
Look at you, looking at you, baby
Yeah, heyDanced hard into the dancing crowd
I felt like screaming out loud
All I wanna do, all I wanna do
All I want to doIs look at you, looking at you, baby
Look at you, looking at you, baby
Looking at you, looking at you
Looking at you, baby
You baby, you baby, you baby, yeah
