

# Who Cries For Me

## Idle Cure

Somewhere in the distance  
We can close our eyes and turn our heads  
Way off in the distance  
Another baby dies and the blood is shed

Come join the resistance  
It can turn your heart, it'll burn your soul  
Is there any difference  
In the child alive or the seed that's sown

Oh... can ya hear them, the children say...

### Chorus

Who cries for me? I didn't want to die  
Who will cry for me as I go to my Father's arms  
Who cries for me? Please just stop the lie

We cry just a little  
When we hear the tale of a fallen tree  
And stand in the middle  
As they cut the cord of society

Who'll fight for the voiceless  
Yeah, the times are hard no guarantees  
We live with the choices  
Till we raise a voice and get on our knees

Oh... if you listen, the children say...

### Chorus

Who cries for me? I have been denied  
Who will cry for me and for those who've yet to come  
Who cries for me? Please just stop the lie

We too are the victim if we turn our eyes away  
Will we let them die or fight for life today

### Chorus

---
